Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/559,317	Applicant(s) KLABUNDE ET AL.	
	Examiner DARYL C. POPE	Art Unit 2612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

ART REJECTION:

Claim Rejections - 35 USC § 103

2. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Helal.

-- Claims 1-10 recite subject matter that is met by Helal for the reasons of record as discussed in the previous Office action, except for:

1) the monitoring quality of the communication link causing automatic switching between first and second modes.

Although not specifically taught by Helal, the examiner takes Official Notice that in the communication art, use of devices which monitor the quality of a communication link so as to cause switching to a better quality link is well known.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate these means into the system of Helal, since one of ordinary skill would have recognized the advantage of these means, since heavy interference from crowded airways would have prohibited the system from operating in the most efficient manner possible. Therefore, allowing switching of links based on the monitored quality of any particular link would have ensured the most optimal communication link would have been utilized at any given time in the system.

As well, with regards to claim 11, the examiner also takes Official notice that use of mobile devices for acquiring and communicating a patient's physiological parameter data is also well known, and therefore it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate these functions into the mobile device of Helal, since Helal already desires to monitor a patient's condition with regards to medical consumption, and therefore monitoring physiological parameters would have been readily communicated by the device.

REMARKS:

Response to Arguments

3. Applicant's arguments filed 12/28/2007 have been fully considered but they are not persuasive and have been addressed with regards to the new grounds of rejection above.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DARYL C. POPE whose telephone number is 571-272-2959. The examiner can normally be reached on M-F 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, DANIEL WU can be reached on 571-272-2964. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
